BS

“ He was a light in my life that showed through this darkened world. I thought we would be here till the end together. My ride or die, the things we went through together were insane and I know I will only share those things with him. I love this man with my entire soul, I know he is in heaven chillin with my son waiting for my time to come. Until we meet again, I love you bunches and bunches, for ever and ever baby.

“ He was my brother and always will be. He forever changed my life. He was the best version of a human being in everyway possible. My life will be better because our paths crossed. Fam for life, I love you brother.
Love Dana
